DETAILED ACTION

1. This office action is in response to amendment dated: 9/5/06. Based on this amendment, claims 1-12, 14-15, and 20-25 are pending. Claim 13 and 16-19 were cancelled previously.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kendal M. Sheets, Attorney, Reg. No. 47,077 on 9/12/06. The application has been amended as follows:

Refer to claim 1, line 16. "said a processor" has been changed to --said processor--.

Refer to claim 10, line 1. "claim 1" has been changed to --claim 4--.

Refer to claim 20, line 4. "signals," has been changed to --signals--.

Allowable Subject Matter

2. Claims 1-12, 14-15, and 20-25 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Art Unit: 2617

The prior art of record does not disclose, teach or suggest directly, or indirectly the following limitations in combinations with other limitations of the claims, as follows:

As recited by claim 1,

“processor and said system communication bus, for communicating said measured characteristic of each of said strongest local participant input signals, to said plurality of remote conferencing nodes; and

a demultiplexer, connected with said processor and said system communication bus, for receiving said measured characteristic of each of said significant signals of remote participant input signals from said plurality of conferencing nodes;

wherein said processor compares said measured characteristic of each of said strongest signals of said local participant input signals and said strongest remote participant input signals”.

As recited by claim 21,

“comparing, in each node, the measured power levels of the local input signals with the measured power levels of the remote input signals to determine the local input signals and the remote input signals with highest power levels;

determining, in said local conference node and said remote conference node, an aggregate sum of said remote input signals and said local input signals having said highest power levels from said comparing and

Transmitting said aggregate sum to each of said local communication channels and said remote communication channels as an output”.

Art Unit: 2617

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
